- Time Management
- Problem Solving
- Communication
- Self-learning

Quick Stats:

- 160+ Clients
- 219+ Projects
- 10+ Countries
- 26,880+ Working Hours

Profile / Summary:

I'm a professional Full-Stack Web Developer with over 6 years of hands-on experience in developing high-performance and scalable web applications. Although I have delivered many full-stack solutions, my main expertise is in back-end development using Laravel.

I specialize in architecting robust backend systems, developing secure RESTful APIs, and managing complex databases with a strong focus on performance and clean code. I bring deep knowledge of the full software development lifecycle and a passion for turning ideas into powerful, maintainable solutions.

Career Objective & Key Strengths:

To leverage my Laravel backend expertise and full-stack development experience in delivering high-quality, scalable web solutions. I aim to grow within a dynamic team and contribute to business success through efficient, clean, and maintainable code.

Programming Languages:

PHP, SQL, HTML5, CSS3, JavaScript, JSON, Ajax

Frameworks/CMS/Libraries:

- Laravel +12 - WordPress +6.8
- Bootstrap/jQuery/VueJs

API Integration:

- Payment Gateway: PayPal, Braintree, Paymill, Stripe, Authorize.net
- Social: Facebook, Twitter, LinkedIn, Google Maps, Telegram, Instagram

Hosting & Server Administration:

- Linux: Centos, Ubuntu
- Shared Hosting

Databases:

- MySQL
- SQL

Familiar with:

- Trello
- Git, bitbucket, GitHub

Soft Skills:

- Strong communication and teamwork
- Self-learning and continuous improvement
- Leadership and team management
- Analytical thinking and problem solving
- Effective time management
- Ability to translate business needs into technical solutions

Languages:

- Arabic – Native
- English – Professional working proficiency (75%)

Trainings & Certifications:

- Clients Served: 160+
 - Projects Completed: 219+
 - Total Hours Worked: 26,880+
 - Countries Reached: 10+
-

Experience:

Full-Stack Developer & Digital Marketing Manager – Lahzat AI-IbdAA Advertising Agency

Feb 2019 | Remote (Saudi Arabia)

Developed web platforms and managed digital marketing campaigns for NGOs and charity projects. Led project execution, social media management, and fundraising campaign operations. Supported data tracking, validation, and reporting to improve campaign performance.

Full-Stack Web Developer – NITBee

Feb 2019 – Oct 2023 | Gaza, Palestine

Worked on several full-stack projects using Laravel and Vue.js, focusing on building scalable and secure web applications. Contributed to API integrations, database optimization, and front-end development using Bootstrap and jQuery.

Freelance Developer – GSG & Mercy Corps Agency

12 Months | Remote

Provided technical support and developed custom web solutions for local clients and NGOs as part of a remote engagement.

Web Developer – DevAny (Founding Team Member)

Nov 2017 – Jan 2019 | Gaza, Palestine

Participated in developing and launching various web projects. Handled backend development using Laravel and collaborated on UI design and integration.
